

If you are Interested to become one of our Star4Like Dj's you have to follow those steps:

- 1) You need *Server Link* and *password* so you have to Contact with Administrator Star4like , or you can make a post like "I want to be Star4like dj". We will contact with you as soon as possible.
- 2) Download Radio Boss from <https://www.djsoft.net>. This software is the best for beginners . if you are an expert you can use your other software like SAM or Virtual Dj etc.
- 3) In the top menu of Radio Boss , select Settings -> Options.
- 4) In the Settings Window , Select Broadcast.
- 5) Click the "+" button
- 6) Server : the link you have received from Star4like administrator.
Password: the password you have received from Star4like administrator.
You can fill some details of your own on Encoder Display Name.
- 7) Do Not check "Broadcast Enabled" yet cause Radio Boss will try to connect with the server and maybe you are not ready yet. So leave it unchecked.
- 8) You can start or stop Broadcast clicking on Blue Earth icon. Be sure you have contact with Star4like administrator to get the permission to make live and there is no one else making live the current time cause you will receive error connection messages.

Common Error Messages (RADIO BOSS)

Cannot start broadcasting (Output N): Error 2100

The specified password is incorrect – Please Check the password.

Cannot start broadcasting (Output N): Error 2

The server is not available or the specified server address is incorrect. The problem is probably caused by entering an incorrect address or port. Other reasons : Some antivirus software or a firewall is blocking the connection , or no network connection is present

Cannot start broadcasting (Output N): Error -1

The most common reason for this error : Someone is already connected to the server.
